

Product Description

Plastic black vanes with custom plated bezel

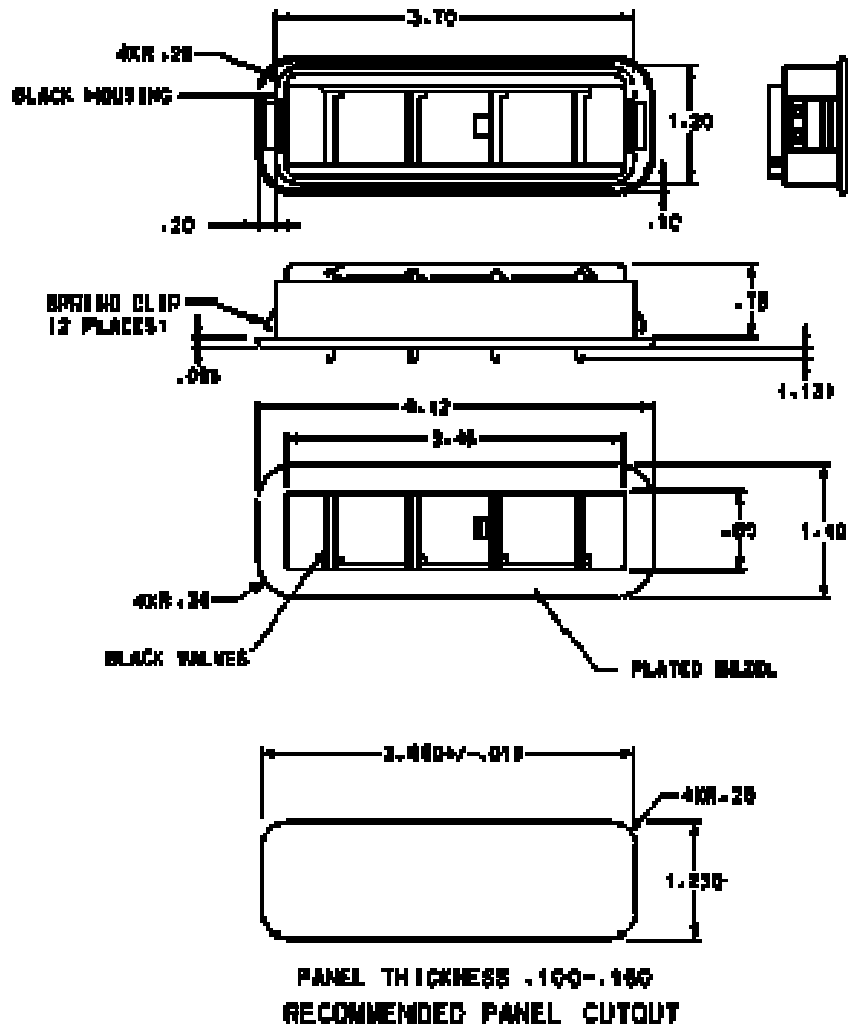

Four vane design

Wide air flow pattern

Variety of plated bezel finishes

Low profile rectangular shape

Spring clips for simple snap-in installation

AV4002 is a plastic injection molded louver air valve with aluminum plated bezel. The wide rectangular shape provides a large air flow pattern. The four vanes are adjusted by applying force to the center vane finger grip. Adjustment of the vanes provide control of the volume and direction of the air stream.
